

Floralife® eZ Dose® Fast Dissolving Clear Flower Food

Ideal for use as a holding solution or as a shipping solution. The eZ Dose® packet is designed for easy use by bouquet operators, supermarkets, mass merchants or anyone who wants to have a visual identifier that their flowers have been treated with a fresh flower food!

eZ Dose® is eZ to use! eZ Dose® is specially formulated for maximum effectiveness in different water types:

- eZ Dose® **Regular:** For regular water types
- eZ Dose® **Hard:** For hard water (high alkalinity)
- eZ Dose® **Pure:** For pure water

Just measure the volume of water and drop in the appropriate eZ Dose™ packet. There is no need to open the packet. The contents quickly dissolve and disperse to create the right environment for your flowers.
