

OASIS® Postharvest 100 – Clear

hydrating solution

OASIS® Postharvest 100 is a hydrating solution, used after cut flowers have been harvested or transported waterless

For Growers, Wholesalers & Bouquet Makers

Effect

- contains acidifiers to adjust the pH of the water
- keeps the stems 'plumbing' free flowing
- inhibits and removes stem blockage
- can be used on all flower varieties
- increases hydration
- prevents limp leaves, bent neck and flower scrap
- effective at room temperature and in refrigeration
- highly concentrated and cost-effective
- clear in all water types

Directions for use

- remove foliage that will be below the solution level in the container
- recut flower stems with a sharp knife
- place stems in solution of OASIS® Postharvest 100 for approx. 1 hour at room temperature or for 8 hours at approx. 3°C
- after treatment with OASIS® Postharvest 100 we recommend to use OASIS® Postharvest 200 & 300

Dosage 1:200 (0.5 %)

- dispense 5 ml OASIS® Postharvest 100 per 1 litre of water (handpump: 1 stroke per 2 litres of water)

Item#	Size	ready-to-use solution
10.002	25 L Container	5 000 Litres
10.133	200 L Drum	40,000 Litres
